Healthcare Administration candidate giving her feedback

They were from junior, middle and senior level management positions from a broad spectrum of health care institutions covering single specialty to multi-specialty hospitals found the course to be of great relevance to their vocation in terms of enhancing their skill sets, equipping them to handle direct and indirect healthcare issues and to organize their departments much better.

While the course won overall praise for its holistic approach to hospital administration, in-depth, wide and well researched content and professional levels of tutoring by the faculty, TwinTech staff members won praise and admiration for their efforts in making the entire learning experience very pleasant and memorable.
